This Agreement is not exclusive to either party.

B. Objective

The objective of the agreement is to provide clinical mental health assessment and therapy, care coordination, and other ancillary services to Bloomington School students outside of the educational model. These services should be available on school sites as defined and provide support to the family and at home as necessary. These services are intended to assist in maintaining educational services for special education students and general education students in the least restrictive environment. They are also intended to provide staff development and consultation to Bloomington School staff that will assist them in supporting the students in the educational setting. This service is expected to collaborate and compliment any existing services provided by the licensed staff, psychologists, social workers or counselors but is expected to extend into a clinical therapeutic model which is beyond the “educational provisions” that are in place.

C. Certification

The actual hours/days of service at sites will be determined by WCC staff, supervisors, and appropriate District personnel in order to meet the needs of individual children, families and the District.

Scope of Service (continued)

2. WCC will provide mental health services, including: early identification; consultation to school staff; diagnostic assessment; training; care coordination and treatment.
3. WCC will own all clinical records including testing results, reports and clinical notes generated as a result of client contact. The SCHOOL will pay WCC in the amount of \$16,000 per 12 month period which will be billed to SCHOOL at the end of each month of this contract. Payment will be made by SCHOOL to WCC within 30 days after receipt of bill. Funds are for non-reimbursable program expenses associated with the delivery of non-clinical services (i.e., early identification; program development, consultation to and collaboration with school staff and parents; training; and care coordination).

F. SCHOOL Responsibilities

The SCHOOL will provide office furniture, phone and internet connections, a locked filing cabinet, office supplies, and a private, confidential office space in an appropriate area for therapy.
